

# Traveling With Your Debit Card...

If you intend to travel within the United States or internationally, let us know your dates of travel and the cities/countries you will be visiting. For extra security, we have developed a fraud protection program which monitors activity and looks for suspicious or unusual transactions not normally associated with your card. Your card may be blocked for potential fraudulent use if our card processor is unable to reach you to verify your transactions. Please notify us of any address or phone number changes.

Please call any one of our branches or use our toll free number at 1-800-244-8161 Monday through Friday 8:30am - 5:00pm and speak to a customer service representative to notify us of your travel plans.

## Other ways for you to access your account or have money when traveling:

1. Travelers' Checks are always available at our Franklin Street location. They can also be ordered in advance from any of our other branches for pick up at a later date.
2. Personal credit card.
3. ATM Card.
